

WEAVIT STYLE LOOM

You will need yarn of approximate length:

- 2 metres for a 5cm square.
- 5 metres for a 8cm square
- 6 metres for a 10cm square.
- 9 metres for a 10cm x 15cm rectangle.
- 12 metres for a 15cm square.

Tie on as shown on Layer 1 and, going lengthways first (if on a rectangular loom), follow the pattern through Layer 2 (shown in red) and Layer 3 (shown in green) then, at the end of Layer 3 thread the remaining yarn on to the weaving needle.

From the point marked 'Begin Layer 4', using the weaving needle, weave under one over one (shown in blue) following the pattern until the weaving is complete, tying off where marked.

Ease the finished weaving up and off the pins.
